Dear friend;

You know aMaze. You know our work and you've shared in our successes. You support creating welcoming classrooms for all children and their families.

Your continued support has been the backbone of aMaze since our inception almost 15-years ago. Because of your generosity, we held our ground during a tough economic downturn.

You celebrated with us as Iowa universities and colleges implemented the Families All Matter Curriculum as part of elementary education programs across the state.

You gave input as we formulated the preschool version of Families All Matter and celebrated as it blossomed into the celebrated Families All Matter Early Childhood Program.

**Because of you, children in early childhood programs across the country have been introduced to a diverse and global world through the eyes of our very own Persona Dolls.**

You truly are OUR FAMILY and like our programs teach: families change. It's time for aMaze's family to grow. As our reach extends across state lines, the need for support also grows. Below are three ways you can help make this happen.

Choose one or choose all three and help us expand our family.

1. Increase your donation by 50% allowing us to build off the momentum of our Early Childhood Program as we formulate the new FAM for Families curriculum and pilot FAM Faith across the country.
2. You believe in our work, so pass it on! Take the attached slip and introduce aMaze to a new teacher, childcare provider, or afterschool program. Put it in the collection basket at your place of worship. Pin it to the bulletin board of your neighborhood coffee shop.
3. If you give at work, make sure your United Way donation is earmarked for aMaze. Verify that your money is fully matched by your employer.

Remember every dollar, every children's book, every classroom discussion radically changes the world for a child. You know aMaze and you believe in our work. Please, help our family grow.

Thank you,

Nancy Michael  
Executive Director
